To whom it may concern,

My name is Kris and I have been doing some research on the property located at 3010 Rand Rd. I'm looking to possibly purchase the property but before making a consideration I would like to be assured there are no environmental issues. I understand there use to be a carpet company located on the property which caught on fire several years ago. I also understand the owners who own this parcel also own the parcel on the other side of interstate 70 which caught fire last year. I understand there are environmental concerns on the Seerley Rd. property and wanted to make sure 3010 Rand Rd. doesn't pose any environmental issues as well. Any info you can provide would be greatly appreciated.

Thanks
